

Additional Instructions for mailing your parcel

- Cut out the return label and stick it on the outside of the return package.
- Check that the label is firmly attached to the address side of your package. Ensure that the old address and the old barcode are covered and that the label does not protrude over the side of the package.
- Securely package the item to avoid damage during return--if possible, please use the original packaging. Please include the original packing slip and write the reason for your return on the packing slip.
- If the value of the items you're returning is more than EUR 40.00, it's recommended that you use a trackable return method. Regardless of the shipment method you use, please keep your receipt as proof of posting.

Return Mailing Label

Cut this label and affix to the outside of the return package
